Bretthauer Oil is getting a new neighbor.

Bretthauer Oil has leased the northwest corner of our Hillsboro yard to FuelCloud, a local fuel technology company, for the construction of their first headquarters. Construction is scheduled to be completed by the beginning of 2022.

Our company believes in FuelCloud's mission to use technology to improve how customers manage their fuel, and we have been early adopters and beta testers for FuelCloud's products since 2015. By welcoming the FuelCloud team to our yard, we're getting the opportunity to work more closely with an important service partner and stay on the cutting edge of our industry.

Bretthauer Oil has always been committed to fueling the local community's success. We're proud of the part we can play in FuelCloud's future while continuing to support other local businesses with the same customer-focused service and fuel expertise that we've provided for more than 90 years.

You can learn more about FuelCloud on their website, [FuelCloud.com](http://FuelCloud.com), or from your Bretthauer Oil representative.
